PROJECT	“Mini City Council” Role Play Students will participate in a role-play activity to understand how a Municipal Corporation works in a city. The class will be divided into different roles such as Mayor, Councilors, Sanitation Officer, Water Supply Officer, and Citizens. A situation will be given to the students, for example “Garbage is piling up in the city park.” Students will discuss the problem in a mock city council meeting and suggest possible solutions to solve it. Each student should prepare a short note about their role and the solution they will present. During the activity, students will explain their ideas and participate in the discussion in the classroom. This project will help develop communication skills, decision-making ability, civic awareness, and problem-solving skills.
